Polytope Booking seals the deal with Pretty Pink

Polytope Booking is very happy to officially seal the deal with Anne Karolczak aka Pretty Pink. The female DJ, risen from the deep & dark woods of the Harz in Germany, made a substantial way through the steaming and raging international club scene to manifest her belief in the very finest tunes of Nu Disco, Deep - and the most unique secret selection of House. Pretty Pink by now is a fairly well known artist within Europe. Her edit of Daft Punks [Get Lucky](#) truly turned into a underground hit and has been played by famous DJ's around the world.

With no doubt, she incorporated all projects ready to catch fire and go viral since she's very active on all social media channels. „My background in design studies helped me to get my style pointed in the right direction“.

Pretty Pink embodies a tasteful sound with a twist of madness that has lifted the crowds at gigs and festivals on a new level. Combined with years of professional jetset, she is a multitasking workaholic and it is with great pleasure, we work-a-holic as a team now.
